➤ 1-844-473-6322

Clinical Benefits:

- **Save time for caregivers** – reposition patients with a single care provider
- **Eliminate the physical strain** of patient repositioning
- **Maintain 15 – 30° head-of-bed angle** during repositioning to facilitate respiratory function
- **EasyBoost™ Sheet is breathable and reduces friction and shear on the skin**
- **Technology is available at the bedside.** Device remains attached to the bed during patient stay, or can be moved from bed to bed
